

I have heard that the FCC is trying to interfere with me get up-to-date news and preferred programming that XM radio offers me. If I didn't want it this ability, I wouldn't be paying for it. In addition to the news, traffic reports and weather, I enjoy the type of radio that regular radio doesn't offer. I am a big fan of the old-time radio, as well as short story channels. I want to voice my opinion in asking that the FCC reject the NAB's petition 04-160. I should be able to make any purchase I chose and I chose to subscribe to XM Satellite Radio!

Respectfully,  
Susan Saavedra
